

The Fullex Crimebeater Midlock was designed to defeat the dual threats of lock bumping and cylinder snapping. The addition of a 20,000 differ 5 lever midlock defeats both forms of attack, by locking the lock, in addition to the cylinder function, which locks the door.

Crimebeater Midlock conforms to BS10621 and NHBC 2010 guidelines for enhanced security and requires no additional keep preparation.

- PAS23/24 and Secured by Design
- Meets NHBC 2010 guidelines for enhanced security
- 2 tapered steel hooks, deadbolt and latch or 3 deadbolts and latch
- 20mm stainless steel or 44mm white aluminium faceplates
- Dual or single spindle option
- Easily reversible latch as standard
- Integral hold back latch function on lock faceplate
- Various adjustable security keep sets

www.fullex-locks.com

Midlock is available on any Crimebeater variant, in 35, 45 and 55mm backsets, with 20mm radius end Austenitic stainless steel and 44mm full length White aluminium faceplates.

All options are available as 3 deadbolt and latch or 2 hook and deadbolt and latch, making Crimebeater flexible and secure.

Coupled with Fullex door hinges, handles and accessories, Crimebeater Midlock is at the forefront of residential door security.
