

# Fullex Patio door lock

The Fullex Eurogroove patio door lock has been designed to offer high security and reliability.

Manufactured from Austenitic 201 stainless steel, the lock incorporates 6 opposing hooks, a central anti lift bolt and has the option to add shootbolts at the top and bottom.

Backed by a 10 year guarantee, salt spray corrosion tested to in excess of 480hrs and tested to 100,000 cycles, Fullex patio locks offer long term reliability as well as security.

- Secured by Design
- Six opposing stainless steel hooks and centre anti lift bolt
- Mis handling device to prevent damage to lock and keep
- One piece stainless steel keep
- Shootbolt extendable top and bottom as standard

Fullex patio lock suits all major PVCu profiles and the one piece keeps are available in 12mm or 16mm channels with profile specific packers.

The Fullex patio lock is finished in stainless steel, offering in excess of 480hrs of neutral salt spray resistance, giving peace of mind to both fabricators and homeowners.

When matched with the Fullex ABC anti snap/anti bump cylinders, Fullex patio locks are at the forefront of residential home security.
