

fullex[®] locks limited
best by design

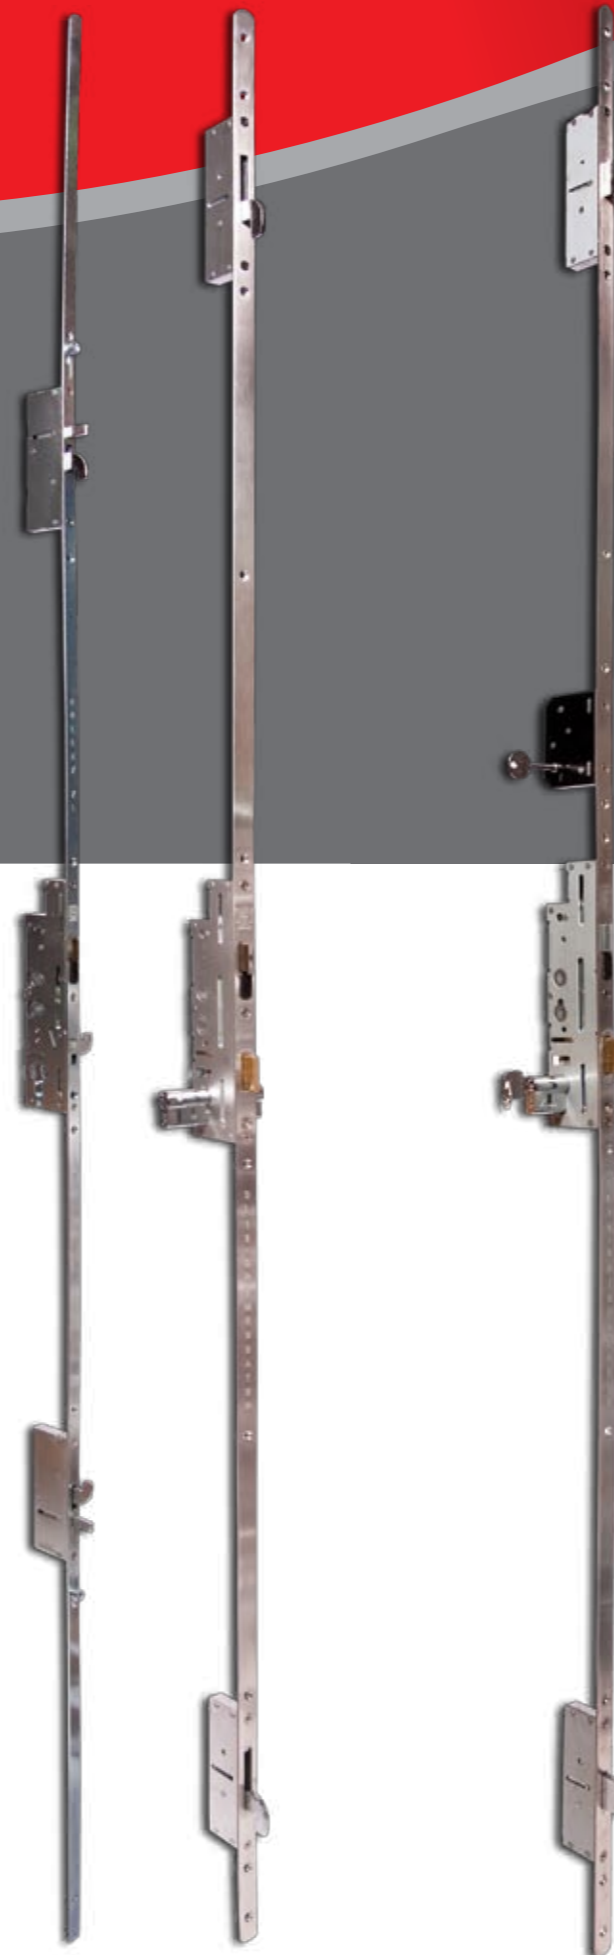

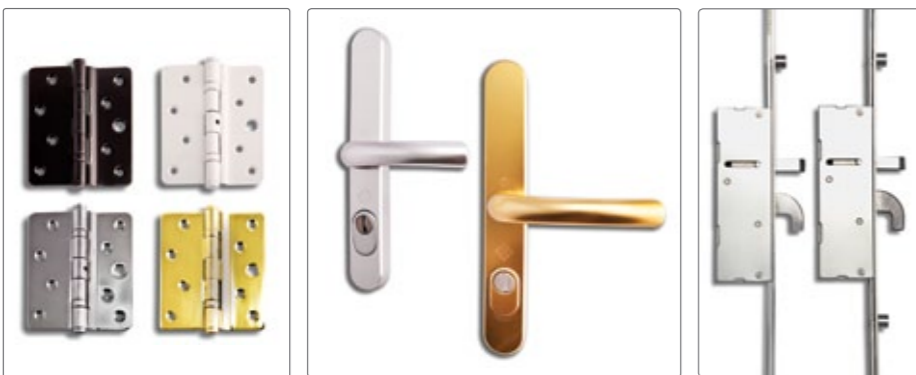

Three decades

Fullex have been manufacturing locks for over 30 years and our emphasis has always been on reliability and security. In fact, we were the first company to be licenced by Secured by Design.

Our products have evolved over the years, but not our commitment to quality. All Fullex door locks carry a 10 year guarantee and are Secured by Design approved.

Fullex current range includes many innovative products and ongoing development, keeps us at the forefront of residential door security.

- Composite, PVCu and Timber Multipoint locks
- Multipoint panic hardware systems
- PAS23/24 and Secured by Design approved products
- In house training for maintenance personnel
- UKAS accredited test centre

With long experience of lock and hardware design Fullex offers bespoke design facilities and full technical and fitting instructions.

Marketing support literature and images are available for customers own marketing literature.

Fullex security guarantee scheme adds to homeowners' peace of mind and demonstrates Fullex's confidence in our security products.

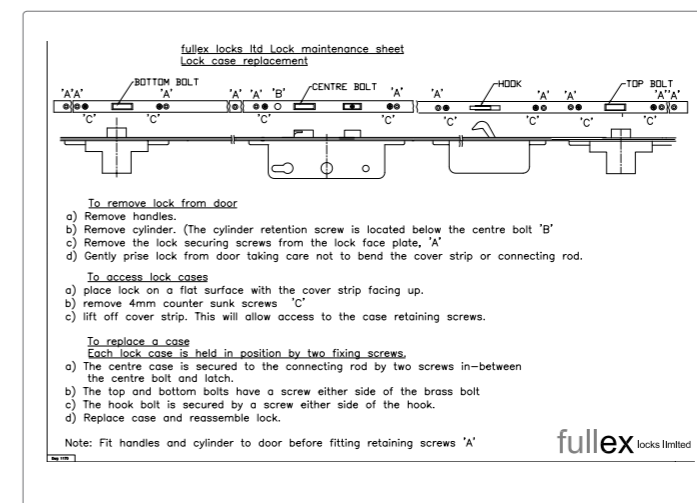

Sustainability

Fullex have for many years trained service teams for large National manufacturers in the repair and maintenance of Fullex lock systems which have exceeded the initial 10 year guarantee, enabling simple modular repairs, further reducing waste.

Austenitic Stainless steel used extensively for long life and durability.

Organic Dacromet coating excludes Hexavalent Chromium and other pollutants.

Simplified packaging scheme has achieved a 40% reduction in cardboard waste and improved manufacturing efficiency.

Testing

Fullex testing services is a fully accredited UKAS testing facility, offering over 10 years test experience. Tests can be carried out for both PAS23/24 and BS7950 certification and indicative testing of any type can be offered in consultation with our experienced team.

Standards

Standards are a critical component of the Fullex design process and we work closely with nationally recognised bodies, including Secured by Design (set up and run by the Association of Chief Police officers) to set and enhance security standards, to meet and exceed the new threats to homeowners.
