

## Your family and possessions are precious, so having confidence in your security is vital.

**All Fullex locks are Secured by Design and exceed the highest industry security standards. When you close a door fitted with Fullex locks, you lock out unwanted visitors and protect your home from the elements.**

The operation of the lock is simple and once locked, you are protected by up to seven steel locking points and smooth operation is assured by rolling steel compression cams.

You can rely on the XL range for your long term peace of mind. The XL lock has been tested to over 50,000 operations, which equates to 20 years of use.
